

Windows XP and QB 2014 R6

Posted On Jul 07, Posted by _ Category [Support](#)

Warning: If you have Windows XP do not install R6 or it will prevent your QB and QX from communicating until it is removed.

We have identified a particular qll file that is affecting third party software. A Windows XP computer using Qxpress and QuickBooks 2014 R6 will result in QB and QX not communicating. R6 works with Windows 7 and Windows 8 with no issue currently.
